BITO
STORAGE
SOLUTIONS

Sturdy, durable, sustainable, space-saving and even more ergonomic.

BITO Multi-purpose container MB

For almost 30 years, our stackable and nestable **BITO MB container** has been your first choice among sustainable and space-saving storage and transport containers on the market.

Winner of several awards for function and design, the **BITO MB** will soon be available with an additional **ergonomic feature**. In addition to the hand cups on the short sides, the long sides will also come with integrated handles.

The **ergonomically designed hand cups** make de-nesting easier when the containers are handled short-side on. Moreover, the cut-outs on the long sides assist automated container stacking and de-stacking.

BITO Multi-purpose containers MB

Why does our MB stand out from competition – apart from being a true all-rounder designed for transport, storage and order picking?

- ✓ Great variety of variants – the MB series offers the widest range of options on the market
- ✓ Long service life – 5-year-warranty
- ✓ Available in many material options: virgin plastic, regranulate, post-consumer material, it is suited for hazardous goods and also comes in a transparent version
- ✓ Enormous gain in space when nested
- ✓ Excellent stacking stability and reliable access control options
- ✓ Suited for use on automated conveyors

Fields of application:

- Mail and parcel forwarding services
Eco-friendly alternative to one-way packaging
- Hazardous goods storage
- Last mile deliveries
- Food sector - MB combined with thermal insulation kit
- Pharmaceutical industry - MB combined with cold packs
- Spare parts logistics
- Archiving

The **ergonomic facelift** will initially be available for MBs with a height of 373 mm and 424 mm. In the medium and long run, corresponding adjustments will also be made to all other sizes of the **MB container series**.

Further features and enhancements to the BITO MB series are to come soon:

- ✓ Recessed textured areas provide protection for barcode labels and other stickers, making them easy to apply and remove.
- ✓ Optional drainage holes in the base and on four sides.
