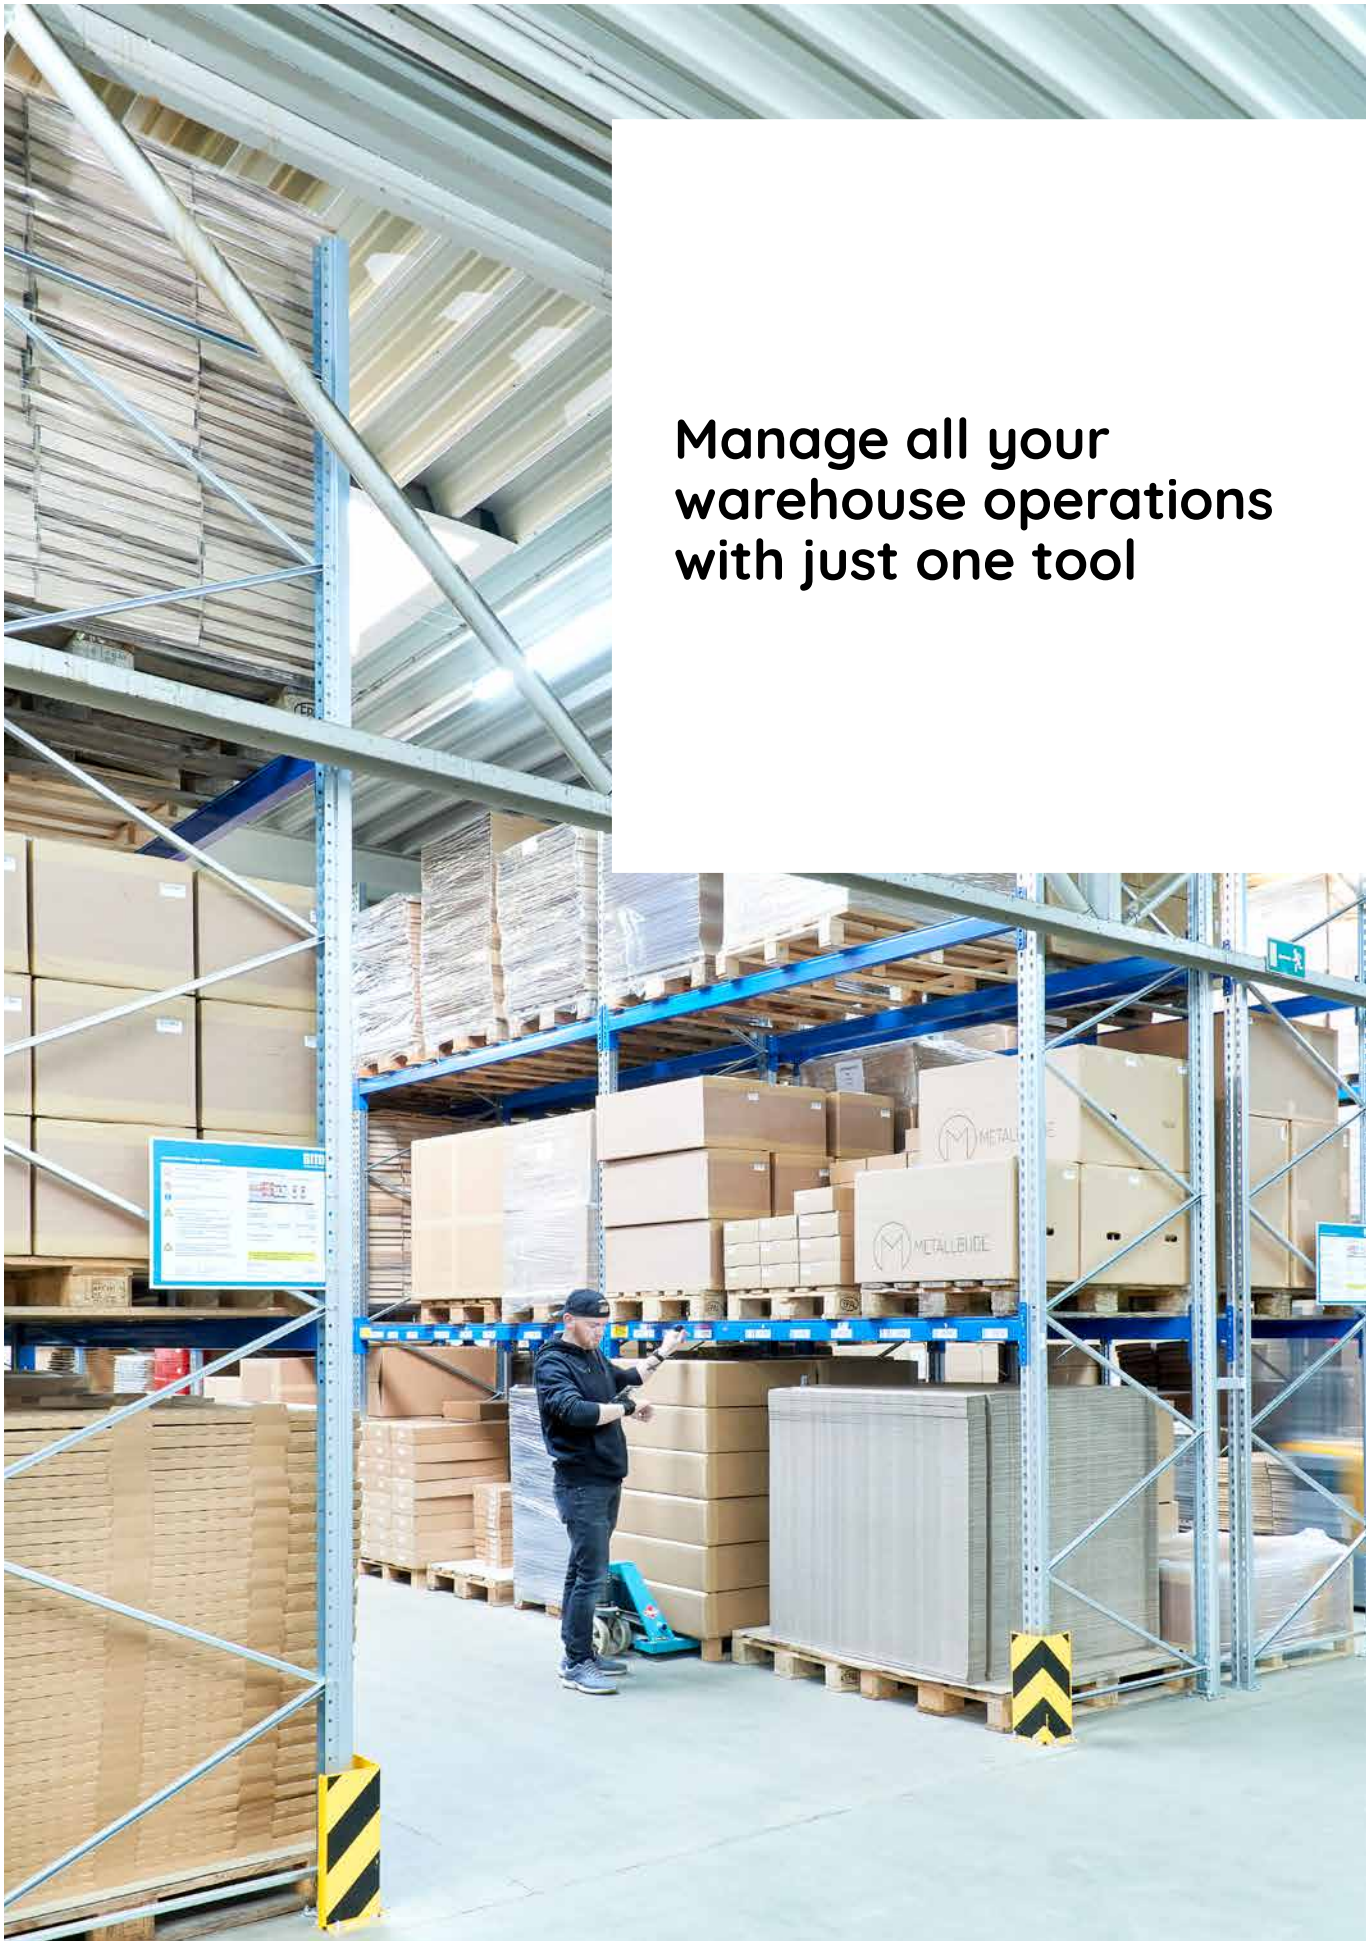
BITO STORAGE SOLUTIONS

Manage all your warehouse operations with just one tool



Digitization is affordable!

PULPO WMS – Warehouse Management System

PULPO is a cloud based warehouse management system (Software as a Service) for e-commerce and SMEs. Digitizing warehouse processes and increasing productivity has never been easier!

Benefit from the advantages of **PULPO WMS**:

- ✓ Little training required
- ✓ Low investment
- ✓ Operation with mobile end devices
- ✓ Improved transparency
- ✓ Increased productivity
- ✓ Reduced process costs
  (less picking errors, shorter order throughput times, etc.)

Plug&Play: The warehouse management app for smartphones makes stock-keeping and restocking even easier.

PULPO uses WMS standard features to reduce order throughput times and best practicemethods to optimise workflows and inventories.

PULPO WMS:

- ✓ can work with different order picking strategies (pick & pack, multi-order picking etc.)
- ✓ implements automated replenishment rules
- ✓ picks a goods-in strategy that fits your product portfolio
- ✓ enables easy monitoring of production batches, sell-by dates and serial numbers

Flexibility in terms of configuration, integration and usability are key advantages of the system.

PULPO WMS:

- ✓ comes with a warehouse configurator to map your warehouse infrastructure (Warehouse WIZARD)
- ✓ helps to define optimised travel routes / walking paths
- ✓ enables easy integration of your article master data
- ✓ provides standardised interfaces to your ERP/ shop system for automated order transfer
